### About Move For Hunger

Founded in Neptune, NJ by the Lowy family, **Move For Hunger** was established to strengthen the efforts of our communities' food banks, while actively engaging in America's hunger fight. By using our unique knowledge and experience, **Move For Hunger** will leverage its existing national network of transportation companies to create one of the nation's largest, year-round service programs.

**Move For Hunger** enlists those who are relocating to donate unopened food that they will not take to their new destination. Our professional moving staff assists in boxing the donations. **Move For Hunger** then makes arrangements for these items to be delivered to local food banks throughout the country.

With the commitment of our partners, **Move For Hunger** will bring a tremendous amount of relief to those most desperate for our help. Since our commencement this past May, we have raised nearly 25,000 pounds of food for local food banks across the country.

### Our Network

**Move For Hunger** is a nationwide program targeted to bring relief to struggling families within our communities. Our network of moving agents is rapidly growing and is now working with over 70 moving companies across the United States. Our moving partners are committed to shedding light on our nation's growing hunger problem. Their efforts are providing much needed support to our communities' food banks.
